“We are pleased to confirm the Kiewa processing site will remain open. We met with the Kiewa team today to inform them of this important decision. We appreciate the uncertainty that employees at the Kiewa site have experienced in recent times and extend gratitude to them for their loyalty. We also want to thank the community and the Kiewa farmer suppliers for their dedication to the Kiewa facility. We now look forward to working together to make Kiewa successful.”
