

11 May 2018

2017/18 milk price increase

We are pleased to announce a further step up in our farmgate milk price for the 2017–18 season for all suppliers of Saputo Dairy Australia in all supply regions (Southern Milk Region and NSW).

Butterfat	5 cents per kilogram
Protein	11 cents per kilogram

This payment is retrospective and applies to milk supplied by active WCB and MG suppliers from 1 July 2017. The payment will be made with April 2018 proceeds in May 2018. This increases our average farmgate milk price for the 2017/18 season for all Saputo Dairy Australia suppliers in the Southern Milk Region to \$5.68 per kilogram milk solids (up from \$5.60 per kgms).

We are focused on building milk supply in Victoria and Tasmania as a priority and farmers looking to supply Saputo Dairy Australia should contact our field services teams.
